

CREATE IBM WATSON IOT PLATFORM AND DEVICE

TEAM ID	PNT2022TMID05259
PROJECT NAME	Smart Waste Management System For Metropolitan Cities

The screenshot shows the IBM Cloud IoT Platform console. At the top, there's a navigation bar with 'IBM Cloud', a search bar, and links to 'Catalog', 'Manage', and a user profile. Below the navigation bar, the main content area displays 'Internet of Things Platform-4z' with a status of 'Active' and an 'Add tags' link. A left sidebar contains a 'Manage' section with 'Plan' and 'Connections' options. The main content area features a large graphic of a central square with four 'U' shaped connectors and a text box that says 'Let's get started with IBM Watson IoT Platform' with a description: 'Securely connect, control, and manage devices. Quickly build IoT applications that analyze data from the physical world.' Below this, there are 'Launch' and 'Docs' buttons. Further down, a section titled 'Ready for the next level?' shows the 'IBM Watson IoT Platform Journey' with three stages: 'Lite' (checked), 'Non-Production', and 'Production'.

The screenshot shows the 'Browse Devices' page in the IBM Watson IoT Platform. The page has a top navigation bar with 'Browse', 'Action', 'Device Types', and 'Interfaces'. A 'Add Device' button is in the top right. The main heading is 'Browse Devices'. Below the heading, there are two buttons: 'All Devices' (selected) and 'Diagnose'. A paragraph explains that the table shows a summary of all devices added and can be filtered, organized, and searched. Below this, there's a search bar labeled 'Search by Device ID' and a 'Device Simulator' toggle. The main content is a table with the following columns: 'Device ID', 'Status', 'Device Type', 'Class ID', and 'Date Added'. The table is currently empty, and a 'No results' icon is shown at the bottom.
